## WORK EXPERIENCE

---

Fiverr, Remote – Web Developer

July – Dec 2022

- Developed efficient and maintainable web applications according to the needs of various clients.
- Achieved Level One Seller Status.
- Worked with clients from different countries and completed all projects with 5-start ratings and good reviews.  
(visit: <https://fiverr.com/developermalhar>)

## PROJECTS

---

**Full Stack Ecommerce Application** - React, Tailwind, Redux-Toolkit, API Integration, Stripe, Express, MongoDB,

- Developed with React for a dynamic and responsive user interface.
- State management handled efficiently with Redux Toolkit.
- Tailwind CSS used for clean and visually appealing layout.
- Backend powered by Express, providing a robust and scalable server environment.
- Persisted the state with redux-persist.
- User passwords hashed using secure algorithms, enhancing data security and protecting user accounts.
- JWT(JSON Web Token) used for secure authorization, ensuring user privacy.
- Stripe integrated for secure and efficient payment processing, allowing users to make transactions with confidence.

**Blockchain-Based Loan Web Application(FYP)** - Gatsby, JavaScript, Formik, Firebase, Solidity, Ethers, Hardhat

- Gatsby used for frontend development, delivering a responsive and performant user interface.
- Smart contracts developed in Solidity, providing a secure and transparent framework for loan management.
- Formik used for form handling, providing a smooth and user-friendly experience when inputting and submitting loan-related information.
- Secure authentication mechanisms, whether through trusted third-party services like Google API or manual authentication for user flexibility and privacy.
- Alchemy used as a reliable and efficient platform for deploying and managing smart contracts, ensuring a stable blockchain infrastructure.

**Food Panda Clone** - HTML, CSS, JS, Responsive

- Developed foodpanda clone from navbar to the footer and is adaptable to all devices

**Landing Page** - HTML, CSS, JS, Responsive, Animations

- A web app made using HTML/CSS and fully responsive ui components and animated interactions.

## SKILLS

---

**Programming Languages:** C, C++, Java, JavaScript

**Frontend :** React **Backend:** Firebase, Express

**Cloud:** Google Cloud Platform, Amazon Web Services

**Software Engineering:** Data Structures, Algorithms, Software Testing

**Operating Systems:** Linux, MS Windows

**Others:** Blockchain, Computer Networking, Information Security.

**Soft Skills:** Leadership, Time management, Effective Communication.

## OTHER

---

**Languages:** Fluent in English, Urdu and Sindhi.

## EDUCATION

---

**Mehran University of Engineering & Technology**

Jamshoro, Pakistan

Bachelor's in Software Engineering

**Government Degree College**

Larkana, Pakistan

Intermediate in Pre-Engineering
